

4.Device added successfully. Return to app home page, your device should appear in the list of devices.

Notes:

- 1.Use a valid email address to register your account.
- 2.Keep the device in a 2.4G WiFi environment with good signal.
- 3.After connecting to power, the device will make a "Di" sound for 3 seconds. Afterwards press the reset button, the indicator light will then flash rapidly.
- 4.Strong lights may interfere with the ability for the device to read the QR code.
- 5.After connecting to the router, the device will make a "ding dong" sound effect. After connecting to the server successfully, it will play a cheerful chime; if it fails, it will play a sad sound effect.
- 6.If the server fails to connect, you may scan the device ID to connect the device.
