## Notes

4. Device added successfully. Return to app home page, your device should appear in the list of devices.

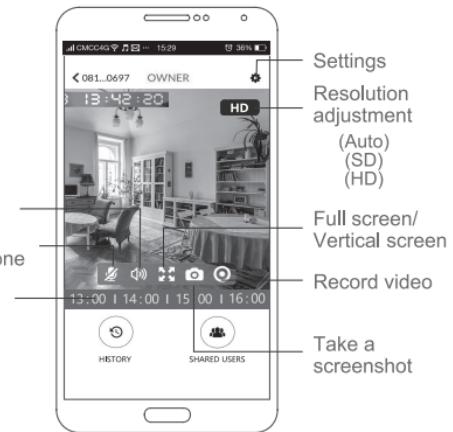

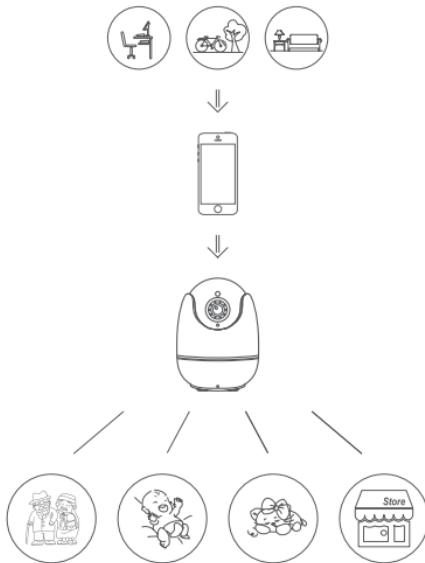

Device added

Device list

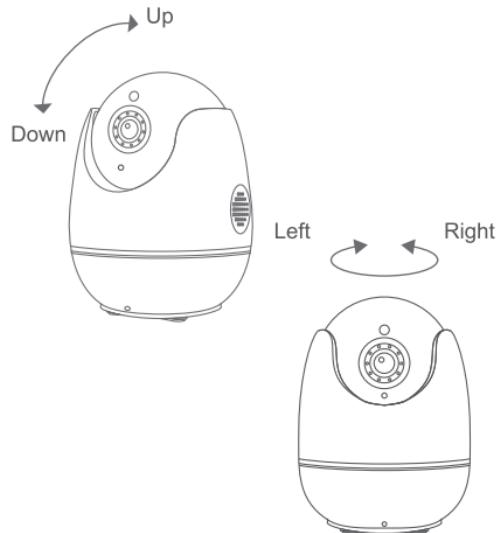

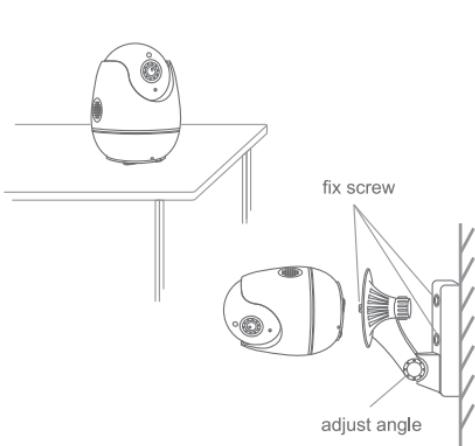

1. Use a valid email address to register your account.
2. Keep the device in a 2.4G WiFi environment with good signal.
3. After connecting to power, the device will make a "Di" sound for 3 seconds. Afterwards press the reset button, the indicator light will then flash rapidly.
4. Strong lights may interfere with the ability for the device to read the QR code.
5. After connecting to the router, the device will make a "ding dong" sound effect. After connecting to the server successfully, it will play a cheerful chime; if it fails, it will play a sad sound effect.
6. If the server fails to connect, you may scan the device ID to connect the device.

## 6. How to use

4. Congratulations! You have completed installation of your camera, you can watch your home anywhere and anytime.

## 7. Caution

1. The device should be kept in open areas away from metal, avoid placing behind furniture or near microwaves. Keep away from areas with lots of cables if possible. Try to keep your device within range of your WiFi signal. For best results, keep as close to the source of WiFi as possible.

2. When moving your device to a new place with a different WiFi, reconfigure your WiFi settings following the instructions on the app.
